2nd International Conference on “Protective Coatings & Surface Treatment”

Date: November 18-19, 2019
Venue: Hotel holiday Inn, Mayur Vihar, New Delhi

With a focus on
- Organic Paint Coatings,
- Inorganic Metal Coatings such as Hot Dip Galvanization & aluminium coatings
- Thermal Spray Coatings &
- Surface Modification using, CVD/PVD and Laser Surface Treatment

Convenor & Chief Technical
Prof. A. S. Khanna
Chairman, SSPC India
Proprietor, Surface Engineering & Coating Consultant
Fellow NACE, Fellow ASM

For registration please contact:
Swati Pawal, M.: +91 9773776934, E: contact@industrialcoating.in
Priyanka Bose, M.: +91 7428400320, E: technical@industrialcoating.in
Website: www.industrialcoating.in
Surface protection has become an essential step either to protect the weak metal from corrosion, oxidation or wear or decorate the surface with different colours or finish. Many possible ways are there to achieve this. **Application of paint coatings** is the most trivial and easy to apply and therefore share 75% of the coating market. Annual paint market in India is about 65,000 CR. In the last one decade, there has been a tremendous enhancement in the quality of paint coatings. Issues such as eco-friendly paint systems, waterborne or low VOC formulations, **functional coatings, smart coatings** have become important keywords. Also, there is a huge requirement in various industrial sectors such as **automotive, marine and shipping, oil and gas, refineries, petrochemical plants and power plants**. Thus it is important to discuss some of these modifications in a two-day conference in the heart of Delhi and come to a better understanding of their selection procedure, application requirements and quality assurance.

There is a parallel coating market, which utilizes sophisticated techniques such as **Thermal Spray, Physical Vapour Deposition(PVD) and Chemical Vapour Deposition (CVD)** and **Laser Surface Modifications**. For many industrial applications, thermal spray has become an important design parameter; much equipment requires hard and thin coatings for long durability. This whole bunch of processing technique come under Surface Engineering and this conference will also devote a technical session to focus this area.

**Submission of Abstracts**

We are looking forward to Crisp papers of max 12-15 slides with the new and latest information on the above topics. Send us an **abstract** of 250 words stating very clearly the objective of the talk, the main theme which will be covered and what new information the paper is giving compared to existing information. Also, include a **brief biodata** of 200 words to highlight your expertise in the subject.

We also request experts above filed to send us their willingness to be on the **expert panel** and are ready to share the latest information on these topics. Send your detailed bio-data and work experience in these respective fields.

Kindly send your nomination/participation details to: contact@industrialcoating.in

**Tentative Technical Sessions**

The Conference will have focused Technical Sessions with an Expert panel as Panel Members and 3-4 presenters who will talk about the latest information on these topics:

- **Technical Session 1:** Corrosion Protection by Coatings in Oil and Gas – Offshore Structures and Underground Pipelines
- **Technical Session 2:** Corrosion Protection in Refineries, Petrochemical Plants and Power Plants
- **Technical Session 3:** Corrosion Protection in Ships and Naval applications
- **Technical Session 4:** Functional Coatings and Smart Coatings
- **Technical Session 5:** Thermal Spray Coatings, Hot Dip Galvanized and Aluminised Coatings
- **Technical Session 6:** Surface Engineering – CVD/PVD and Laser Surface Modifications

**Registration Fee:**

<table>
<thead>
<tr>
<th>Registration Details</th>
<th>Registration Fees</th>
</tr>
</thead>
<tbody>
<tr>
<td>Speakers Registration</td>
<td>Rs. 6,000/- (USD 120)</td>
</tr>
<tr>
<td>Delegate Registration</td>
<td>Rs. 8,000/- (USD 180)</td>
</tr>
<tr>
<td>Student/Spouse Delegate</td>
<td>Rs. 5,000/- (USD 100)</td>
</tr>
</tbody>
</table>

* 18% GST will be applicable in case of INR Fees.

**Corporate Discount:**

- **10% Corporate Discount** for 3 or more Delegates from the same company
- **15% Corporate Discount** for 5 or more Delegates from the same company

**Early Bird Discount:** 10% till 15th August 2019
Exhibition Options

<table>
<thead>
<tr>
<th>Stall Options</th>
<th>6 Sqm(3 x 2)</th>

Salient Factors to attend the conference

- Talks by eminent speakers from distinguished scientists and top professionals.
- Know about the latest product, technology and services
- Meet new Clients/Manufacturers/Professionals
- Networking Opportunities

Branding Options

<table>
<thead>
<tr>
<th>Branding partner Category</th>

About SSPC

The Society for Protective Coatings was founded in 1950 as the Steel Structures Painting Council, a non-profit society concerned with the use of coatings to protect industrial steel structures. In 1997, the name of the association was changed to SSPC: The Society for Protective Coatings to better reflect the changing nature of coatings technology and the ever-expanding types of construction materials.

SSPC is a non-profit organization focused on the protection and preservation of concrete, steel, and other industrial and marine structures and surfaces through the use of high-performance, protective, marine and industrial coatings. SSPC is the leading source of information on surface preparation, coating selection, coating application, environmental regulations, and health and safety issues that affect the protective coatings industry.

About MatCorr

MatCorr was established in 2013. MatCorr endorses a series of comprehensive and structural technical conferences, exhibitions and workshops which will provide an ideal platform for experts and technocrats to share ideas to the needs of individuals and organizations. MatCorr deals with all major fields of Oil & Gas Sector, Power & Energy, Chemical & Process Industry, Metals, steel, Infrastructure etc. to develop the latest practical skills and knowledge. Networking with different organizations will add the learning experiences and knowledge base of both individuals and thereby their Organizations. MatCorr provides a flexible and coherent framework that assures the quality of the academic rigor and management of the event.

Who should attend?

- Coating Industry & related professionals
- Oil & Gas Production/Processing
- Oil Refineries, Petrochemicals
- Fertilizers, Chemical & Process Industries
- Power & Energy Industries
- Infrastructure Companies
- Corrosion, Integrity & HSE Professionals
- Inspection & Maintenance Engineers
- Design & Engineering Companies
- Vendors & Suppliers of Coating
- Equipment Suppliers
- Technical Institutes

Conference Souvenir

Conference Souvenir will be published with details of participating companies, abstracts (presented during the Seminar), photographs etc. The Souvenir will feature advertisements from the industry and is of tremendous publicity & business value. Also, the e-copy of the Souvenir is going to have a significant number of free circulation.

Advertisement for Souvenir

Back Cover Rs. 25,000/- + 18% GST
Inside Front/Back Cover Rs. 20,000/- + 18% GST
Double Spread Ad (2 page) Rs. 20,000/- + 18% GST
Full Page Rs. 12,000/- + 18% GST
Terms & Conditions:

All bookings carry a cancellation charge.

Substitutions of delegates prior to the event date may be allowed subject to management’s discretion.

For any reason, if Organizers decides to cancel or postpone this event; Organizers will not be responsible for any loss incurred by Client/ Participant.

The conference fee will not be refunded and shall be adjusted with future event fee.

Hotel Location of the event may be changed depends on the no of participants without any intimation.

Content of the event program can be changed without any intimation.
